Story arc

Behind the scenes of
Lost Girl: An Evening at the
Clubhouse

After [Bo](#) was engulfed and captured by mysterious black smoke, no one remembers her. A powerful entity has erased the memory of her in [Dyson](#), [Lauren](#), [Kenzi](#), [Trick](#), [Hale](#), [Aife](#), and [Vex](#) (who has replaced [Evony Fleurette Marquise](#), [The Morrígan](#), as leader of the [Dark Fae](#)). Kenzi has been stealing valuable items in exchange for a magical cream from [Massimo](#) that gives her temporary [Fae](#) powers to conceal herself with after [The Morrígan](#) declared that claimed and employed humans were criminals, and were to be considered terrorists and enemies of the One True State. Lauren has gone into hiding and is working in a diner as a waitress under a false name. When Kenzi and Dyson discover that they each have a [Recuerdo Coil](#) implanted in an eye, they go in search for the way to remove it and end its effect on them. When the memory of Bo is restored in everyone, Bo awakens inside the caboose of a moving train. She has been gone for 30 days. Lauren is kidnapped and imprisoned by the Dark and, in return for protection by [The Morrígan](#), agrees to work on behalf of the Dark Fae as their scientist and physician. [Tamsin](#) is reborn into her last life and with Kenzi as a "mother" figure moves into [The Clubhouse](#) and grows rapidly into an adult. Meanwhile, [The Una Mens](#), a council of Fae created to enforce the laws of [The Blood King](#), arrive in the territory to maintain order and exact punishment upon those who did not conform with, or had defied, the laws. [The Keeper](#) is its "grand inquisitor". After Bo has returned to the fold she is shocked to learn that she had somehow chosen alignment with the Dark. Seeking to find out answers to why and how it had happened, Bo finds her way back to the train and meets [Rainer](#), who for centuries has been riding it with other trapped souls, and she helps him escape from it. Rainer was a general that defied [The Blood King](#) and died in battle after leading a rebellion against him and his [Blood Laws](#). When the [Valkyrie](#), Tamsin, came to take his soul to [Valhalla](#), the King made a bargain with her: he gave her an extra life in exchange for his soul; then erased Rainer's existence from Fae history and cursed his soul to the [Death Train](#). Hale and Kenzi finally admit that they are in love with each other and he proposes to her, but a vengeful and maniacal Massimo tries to kill Kenzi. Bo finds out that she is The Queen — The One — and her alliance with Rainer will release her evil father from his prison in [Hel](#). Lauren, who knew that [The Morrígan](#) still considered Bo a threat, had a secret personal mission and when she overheard the Dark Fae leader tell Trick that everything would be easier if Bo was dead, used a serum on Evony that she developed with Evony's DNA, and turned the tables on the vindictive Fae. Dyson, Tamsin, and Trick join forces to hold back the armies from Hel, and Kenzi makes the ultimate sacrifice to protect Bo from her father and his minions.
